

# Let's play Wallball

Any ball, Any wall, Any time!

## 1 Setting up your court

International court size is 10.5m x 6m but you can use smaller sizes dependent on age and space available. Different balls can also be used for different age groups and abilities.

## 2 The Serve

You must stand behind the service line, then bounce the ball once and hit the ball onto the wall so that it bounces past the service line. The serve must land in the service zone. If a serve is long or short, you get a second serve. If it's wide, you don't.

## 3 Rallies

Rally: players take it in turn to hit the ball. The ball can only bounce once, and can land anywhere in court. A player can use either hand to hit the ball.

## 4 Points

Depending on time you can either play to 11, 15, 21 or play a timed game (15/20 minutes).

## 5 Scoring

You only score points on your serve. If you lose a rally on your serve it becomes your opponents serve.

## 6 Doubles

In doubles, shots can be taken by either partner, not need to alternate. The first player in pair A serves until the rally is lost, then the second player in pair A serves. Once both players have lost serve, pair B serves.
